Focus 1

DIGITAL CHECK-IN

"When was the last time you checked your child's phone with them?"

TRY THIS AT HOME

1. Ask which app they use most at the moment
2. Get them to show you how it works
3. Ask if there's anything they'd like help with

A regular, open conversation about apps, messages and online activity helps keep children safe. Make it a supportive discussion rather than a surveillance exercise.
