# Helping your Child Thrive: SEN Support and Access Arrangements

Wednesday 14<sup>th</sup> January 2026

High Achievement – Outstanding Care

## Session overview

- What already helps?
- From home to school
- The three things that really help
- Close

## What already helps?

Think about your child on a good learning day...

Jot down:

- One thing that helps them **start** work
- One thing that helps them **keep going**
- One thing that helps when they **feel stuck**

## From home to school

What your child needs...	What this looks like in lessons...	Access arrangements...
Time to process	Teacher pausing/chunking	Extra time
Works better typing	Laptop in class	Laptop in exams
Needs reassurance	Prompt/check-in	Supervised rest breaks

## The three things that really help

### Consistency

- Tools
- Routines

### Communication

- Between home and school and vica versa
- Small things shared early

### Confidence

- Practising support before exams
- Knowing what helps before pressure hits

Close

## Our ambition...

Thriving doesn't necessarily mean that school suddenly becomes easy.

It means your child knows what helps, trusts the adults around them and believes they can succeed.
